**H. J. OWENS,**  
KNOXVILLE, TENN.

The election is on Tuesday, the 5th day of November.

AN exchange says Tilden's Presidential aspirations have changed into "ex-aspirations."

HOUK and Watkins spoke at Graves-ton yesterday. They will speak at Thorn Grove to-day and at Knoxville Saturday.

IN a spirit of kindness, we would admonish our friends of the Tribune to go slow and think well before going too deep into the "ring" question.

HON. R. N. BAKER, Republican candidate for the Legislature from Anderson and Knox, was in the city yesterday. He has been south of the river this week, where he will receive a large vote.

THE Democrats profess to be satisfied with Tilden's explanation of the cipher dispatches. Let them show their sincerity by giving him a renomination in 1880. The Republicans will not object.

THE Charleston News and Courier says of the cipher dispatches: "This is not what one might style ex-acting or improving political work, and, as Mr. Tilden is not a possibility in Democratic politics hereafter, there is no harm in free speaking. Mr. Tilden bungled and flunked alternately. He could have won by buying an honest decision, and didn't do it. He could have won by fight, and didn't even make a show of it. No more of Tilden in the South, or of anybody like him."

THE Knoxville Tribune says we have denied the existence of a "Revenue Ring" of which Maj. Pettibone is the head in the First District. Wrong again. We did deny it in the most positive terms, and called for the proof. At the same time we pledged ourselves when the proof was presented, that we would show by evidence equally as conclusive that Mr. Taylor is the candidate of the Penitentiary Ring. Come on with your proof, gentlemen, or stop your gabble. Or, if you have no proof, state the grounds for your belief, and we will then give our reasons for saying that the Penitentiary Ring is interested in the result in the First District.

## YELLOW FEVER.

CHATTANOOGA, TENN., Oct. 23. Special to the Chronicle.

The deaths from yellow fever since last report are five, as follows: Jacob Suiteman and Robt. Butler, white; and Anna Brown, — Read, and a child, colored.

The new cases are only three: Mrs. J. V. Thomas, Fred Salchow, white; and Thomas Brown, colored. It is probable there are other cases not yet officially reported.

The colored people use every means to conceal sickness to avoid going to the hospital.

Major Carlisle has a severe case of yellow fever. The temperature of the weather indicates danger, but Dr. Wight expresses the hope that he may recover.

There is danger that contributions will cease with the appearance of frost and leave us unable to prevent widespread suffering.

Recorder Monger will die.

## THE STORM KING.

WASHINGTON, Oct. 23.—A heavy rainstorm, accompanied by violent wind from the northeast, passed over this city last night. From 1 o'clock until 7 o'clock this morning the wind was very high, unroofing houses, uprooting trees and doing other damage. Owing to the storm the Signal Office received only 20 out of the usual hundred and twenty reports from the various signal stations. Western reports came by the way of New Orleans. It was an Atlantic coast storm and did not reach the Mississippi Valley.

The storm came from the tropics. At 11 o'clock on the morning of the 20th the Signal Service ordered up signals at Key West for a storm south of Florida. On the morning of the 21st the storm was to the southeast of Key West and on the morning of the 22d to the east of southern Georgia. At midnight of the 22d it was with greatly increased velocity central near Cape Hatteras, on the North Carolina coast. The maximum velocity of the wind reported was 60 miles an hour.

From midnight to noon to-day the storm rapidly increasing in energy was central near Baltimore. The pressure at the center this morning was below 29.9 inches. It was attended with an unusual heavy rainfall. Here the fall was 3.54 inches; at Baltimore, 2.74; Norfolk, 2.86; Lynchburg, 2.10; and at Smithville, N. C. 4.32.

BALTIMORE, Md., Oct. 23.—The storm here did great damage. Around the basin the water rose very high, several wharves being submerged, and there was some damage done to shipping. The steamer Florida, which left for Norfolk yesterday and returned this morning, reports having her bow badly stove in by a heavy sea off Point Lookout, and was unable to proceed. She also reports having seen one of the Weems' steamers, supposed to be the Theodore Weems, with her machinery disabled, apparently drifting and with signals set, but the Florida, owing to her crippled condition was unable to render any assistance. A deeply laden three masted schooner with signs for assistance was seen off Hooper's Straits and another vessel near her bottom up. Off Sandy Point a bay vessel was sunk, and off Magathy River another vessel.

## WASHINGTON.

WASHINGTON, D. C., Oct. 23.—The Department employees entitled to vote at the November elections will be allowed sufficient leave of absence to visit their respective States for that purpose.

The President and Mrs. Hayes, Secretary Sherman and Geo. A. Gustin, Private Secretary to the President, left for Cumberland, Maryland, to-night.

Secretary Sherman is gathering statistics preparatory to going to work upon his annual report,

which will be a very lengthy one. It is said he proposes to enlarge upon the question of specie resumption, but will not urge any additional legislation to that end, as he regards the question as settled, and before such legislation could be had, specie payments will have been reached. In regard to National Banks, he will argue that they will be in a condition to co-operate with the Government in carrying out existing statutes, as they are now in possession of ample means to that end.

The Eighteenth Regiment of Infantry, has been ordered to move from the department of the South to the West for operations against the Indians. Several companies of the Second Artillery will be sent South to replace the Eighteenth Infantry.

Attorney General Devens has overruled a former decision that National Banks in making up capital subject to duty may be permitted to deduct United States bonds at their face value, and now decides that they may deduct the amount invested in such bonds, not only their face value but premium added. The opinion is expressed in the Treasury that this decision will re-open fifty thousand assessments made by the Treasurer since the passage of the National Banking Act, and considerable money will be required to refund erroneous duties collected from the banks under the previous rulings.

John Brudell was arrested here on the charge of robbing Congressman Waddell, of North Carolina, at the Metropolitan Hotel last May.

## MARYLAND.

BALTIMORE, Oct. 23.—The races at Pimlico were postponed to-day on account of the flooding of the track by a storm of wind and rain last night.

The banking house of Clabaugh, Nelson & Co., has suspended and made an assignment to J. Alex. Preston for the benefit of their creditors. The cause of the failure is attributed to losses of the senior partner, W. H. Clabaugh, in the St. Clair Hotel, of which he was proprietor, shrinkage of real estate and the general dry rot in the business of banking houses. The liabilities of the hotel and banking house are about \$100,000, of which \$50,000 is secured. The assets consist mostly of real estate and book accounts.

Revs. J. R. Payne and D. W. Carter were elected Assistant Secretaries.

On motion, it was ordered that the hours of the daily sessions of the Con-

ference shall be to meet at 8 o'clock a. m. and adjourn at 12 o'clock noon.

The bar of the Conference was fixed at the seals immediately under the fourth arch from the pulpit.

On motion of Rev. G. W. Miles, the Presiding Elders were designated as a committee to bring in nominations for the standing committees, for which purpose they retired.

Rev. J. L. M. French was on motion, excused from service on the Examining Committee, of which Dr. E. E. Wiley is Chairman, and Rev. G. W. Miles was substituted, Rev. C. T. Carroll being the third man.

Rev. M. Kennedy was released from the committee on the second year, and Rev. W. H. Kelly substituted and Rev. W. H. Price also added.

Rev. J. T. Frazier was substituted on the committee for the third year instead of Rev. R. H. Parker, absent. Rev. E. E. Hays offered a resolution, that whereas, Revs. R. H. Parker, J. W. Smith and E. G. Thompson are detained at their station in Chattanooga on account of the prevalence of yellow fever, and can not attend Conference, the Conference heartily appropriate their action and pray for their safety, success, etc.

On the Condition of the Institution, which was read by the Secretary and referred to the Election Committee.

A number of reports and papers on various subjects were submitted and referred to the proper committees.

The 20th question, "Are all the preachers blameless in their life and official administration?" was taken up, and after much discussion it was ordered that in the examination of the character of preachers, when each man's name is called he shall read his financial report and the Bishop ask him about the number of conversions and accessions to the church, and he retire till the Conference pass on his character.

The call of the list of preachers was then begun alphabetically with the following result:

John Alley, character passed and he continued as supernumerary.

K. C. Atkins, D. Atkins, Jas. Atkins, Jr., and W. H. Barnes were called and characters passed.

J. K. P. Ball was granted a superannuated relation.

## Genuine Fiat Money.

From the Pittsburg Commercial Gazette.

A friend has sent us a real piece of fiat money—a Haytian note for 200 cents. He sends with it the information that it requires \$2,000 of that money to purchase a breakfast!

A. S. Wilson, an English scientist, has made an elaborate calculation to show the marvelous industry of bees. Starting with the ascertained fact that 125 heads of clover yield approximately 15,482 grains of sugar, and that the proportion of sugar in honey may be roughly estimated at 75 per cent, he finds that 2,500,000 clover flowers must be visited by bees to obtain one pound of honey from that source.
